product: 459020A
system: H1 - hand towel roll system
Material: Metal
Color: Aluminum
Width: 12.8 in
Height: 17 in
Depth: 8.8 in
Dispenser Key #: 200260

product properties

The touch-free electronic hand sensor roll towel dispenser virtually eliminates cross contamination while cutting back on supply waste. Each unit features a choice of two dispensing modes. The sensor mode, in which the towel remains inside the cabinet until the user activates the sensor, delivers maximum hygiene. The hanging mode, in which a single towel is exposed for immediate access, is ideal for high-traffic venues. An adjustable towel length of 8 inches to 24 inches, an adjustable time delay of less than one second to over four seconds, and a stub roll compartment combine to deliver more precise control of consumption are a few of the features available. Batteries lasts up to 40 rolls on average with normal usage. It's easy to reach and simple to reload. Versatile Installation - dispenser can be mounted directly to wall or within a recessed compartment. Numerous back-plate mounting slots fit most any pattern. Utilizes any Tork H1 Roll Towel. Uses 3 "D size" batteries.
